

A Pilot Study Program made possible by the HIV and Aging Research Consortium, a collaboration between the Nathan Shock Centers of Excellence (NSC), the Claude D. Pepper Older Americans Independence Centers (OAICs, aka “Pepper Centers”), the Evelyn F. McKnight Brain Institutes (MBIs), and the Centers for AIDS Research (CFARs).

NEW RFA for 2024!

The purpose of this program is to promote multidisciplinary research in Georscience and HIV by bridging research excellence between CFAR, OAIC, NSC, and MBI and developing the next generation of HIV Geroscience Researchers.

Proposals with an emphasis on Georscience and its application in HIV will be the focus.

DEADLINE FOR CONCEPT PROPOSALS:

January 12th, 2024
(Only 2 pages!)

Eligibility: Any early stage investigator or any stage Gerontology faculty who is new to HIV research. Post-doctoral fellows must be faculty on or before July 1, 2024 to

2-4 pilot grants will be funded.

Up to \$40,000 total costs per grant.
